Subject: ELEN - Week #1, 2022 Fall Quarter

Here we go, the first full week of the fall quarter.

I hope you build a great routine for yourself, find balance for things outside the classroom and make plenty of time for studying.

A little about me, your assigned Academic Advisor (Thomas): I advise three majors: Computer Engineering, Electrical Engineering and Materials Science. I work 7-4pm, and I am in the office most days (on occasion I may work remote). I love to get out and walk during my lunch break. I commit to helping you as best I can, but I need you to make sure you let me know if you need help with something. I love the work I do, and am thankful that I have been able to do this for many years; and many more to come. I play Pokemon Go, love nearly all movies and TV shows. I am a Dad and can be a bit corny, and with that here is my first Dad Joke for you: What do you call a wizard who is really bad at football? Fumbledore.

HOW TO SEND AN EMAIL

<http://student.engr.ucr.edu/emailadvisor.html>

All BCOE students are asked to follow this requested protocol when sending an email:

Be sure to send an email from your UCR Student Email account to: BCOEAdvising@engr.ucr.edu

List in the subject line: **ELEN and your Full Name**.

Please be sure to include your Student ID# (86*****) in the body of your email.

This process allows our office to monitor, help and respond as quickly as possible to your requests and needs; by following the protocol we are able to filter your email correctly.

Please be mindful of how you communicate. This is a simple task, but one that is important.

ADVISING NOTES

When using the suggested Course Plan, always use the one you are assigned to (you can see this listed as your 'Catalog Year' in the Degree Audit) and the most up to date version (2022).

The most up to date version will show two things; new courses required in the major, and new terms for when courses may be offered.

<https://student.engr.ucr.edu/majors>

**I am attaching the newly approved course plan for the new school year (2022-2023). Make sure you check it and compare it to the version you have that matches your degree check. If you have questions, send me an email.*

-MATH 046 is now EE 020A/MATH 045 **(*Please note that MATH 046 is no longer allowed to substitute for MATH 045/EE 020A*)**

-EE 020 is now EE 020B

-EE 001A & 01LA is now EE 030A & 030LA

-EE 001B is now EE 030B
