Fall 2022 Week 7 Email CSBA/DTSE/ENCS

11/4/22

Hello Students:

Continue to work hard as we approach the last few weeks of the quarter. As a friendly reminder, campus will be closed Friday, November 11, 2022 in observance of Veterans Day.

Data Science Majors:

As a reminder, please check all prerequisites for courses you plan to take.

*Please be advised that ENGR 170/PBPL 171 has never been offered. Therefore, you must take STAT 108 in lieu of ENGR 170/PBPL 17. CS 108 will be offered this Winter 2023. After Winter 2023 grades post, your degree audit will be updated with CS 108.

CS 108 Data Science Ethics: 4 Units, Lecture, 3 hours; discussion, 1 hour. Prerequisite(s): CS 105 or STAT 107 or CS 171; or consent of instructor. Covers ethics specifically related to data science. Topics include data privacy; data curation and storage; discrimination and bias arising in the machine learning process; statistical topics such as generalization, causality, curse of dimensionality, and sampling bias; data communication; and strategies for conceptualizing, measuring, and mitigating problems in data-driven decision-making. Cross-listed with STAT 108.

*Please be advised of the following: The **Data Science Major Breadth Requirements** cannot double count with the Data Science Electives. The Data Science Electives must be distinct from the Major Breadth Requirements.

There are certain Computer Science Technical Electives that may not appear in your degree audit such as **CS 105, CS 108, CS 110, CS 142, CS 144, CS 145, CS 147, CS 167, CS 173 and CS 175**. If you have taken these courses and it's not showing up under the Computer Technical Electives block, then please reach out to your academic advisor so that we can update your degree audit.
