Continuing students can find their course plan in the “Past Suggested Course Plans” section. Your catalog year is the year you started at UCR.

6. Please check your UCR email regularly for any changes to the courses you are registered for.
7. To waitlist a course, remember you can only waitlist for the discussion/lab section. A seat in the lecture is available if there is a seat on the discussion/lab. If a seat becomes available, you will receive an email to add both sections. You will only have 24 hours to add the available seat, so check your email daily if you waitlist a course. If you miss the 24 hour window to add the course, that seat will be offered to the next student in line and you will be dropped from the waitlist.
